

Floral Napkin Rings

Supply List

- Artificial Flowers
- Cloth Napkins
- Tablecloth
- Placemats
- Plates (In 2 Sizes)

Step 1:

Purchase an artificial flower for each place at your Thanksgiving table and a couple extra to use in a coordinating centerpiece. The stems should be around 8 inches long.

Step 2:

Go ahead and set your table with the tablecloth, placemats, and plates of your choice.

Step 3:

Go ahead and roll your cloth napkins up in a neat spiral. Place the flower in the center front of the napkin with the stem pointing out toward the right side. While you are holding your flower in place, wrap the stem around the napkin and tuck the end back under the big flower. Repeat this process until all napkins have been wrapped with the flowers. Tuck your extra flowers into an extra vase and you are ready to greet guests.
