

Perler Bead Ornaments

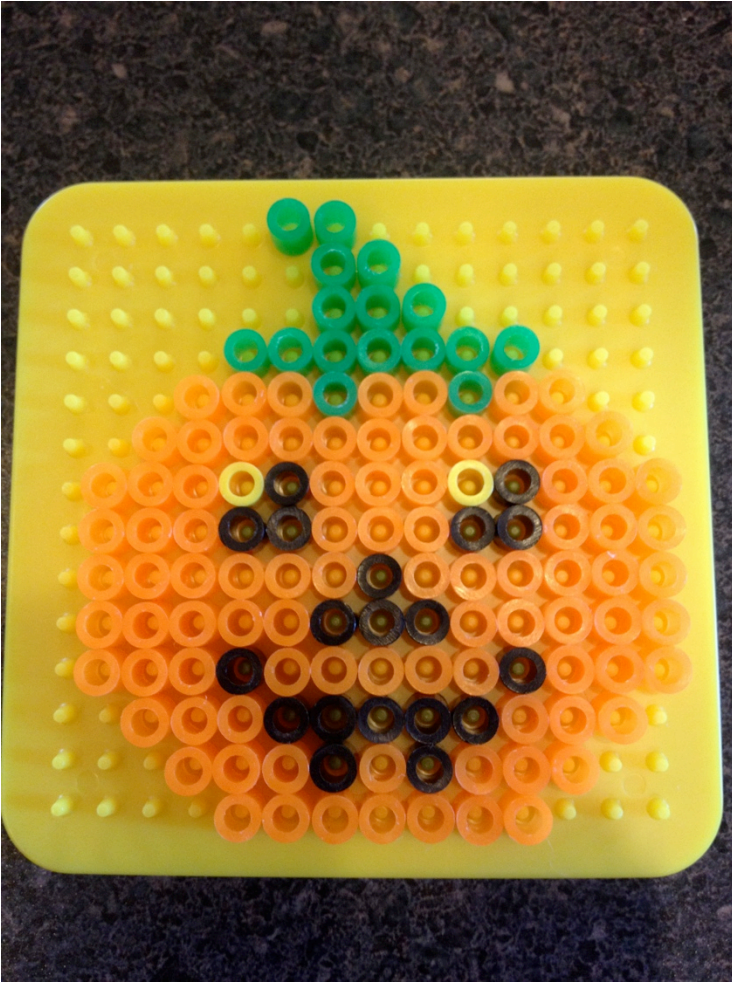

Supply List

- Perler Beads
- Iron
- Parchment Paper
- Ribbon or Ornament Hooks

Get your kids involved in decorating the house for Halloween by letting them design their very own ornaments.

Step 1:

Arrange your perler beads on the plate of your choice in the shape of a pumpkin, spider web, candy corn, bat, or ghost.

Step 2:

Place the included parchment paper sheet over the plate with the finished design and hold an iron set to medium heat for 10 to 20 seconds over the image. You want the edge of the beads to have melted enough that they are connected to one another.

Step 3:

Allow the shape to cool and peel it off of the parchment paper. Repeat until you have enough to decorate a wreath or black tree with the ornaments.
