

Trick or Treat Tote Bags

Supply List

- Black Tote Bags
- 3 Dimensional Fabric Paint
- White Fabric Pencil

Step 1:

Use the white fabric pencil to draw your favorite Halloween images directly onto the tote bag. If you have small children, you may want to do this step for them. If you have older kids, let them do this step all on their own so they can show off their artwork.

Step 2:

Let your kids follow the lines they drew with white pencil with the 3-dimensional fabric paint. They may want to do a practice line on a napkin.

Step 3:

Continue tracing all the white lines until the whole front of the tote bag is complete. Don't forget to add your name as well. When your images are done being traced, leave the bags on a flat surface until they are completely dry.
